

## Objective

Aspiring actor eager to explore the artistic side of life and fulfill my passion for acting. With a deep desire to immerse myself in the world of performing arts, I am driven to bring characters to life and captivate audiences through authentic and compelling performances. Seeking opportunities to learn, grow, and contribute my unique talents to the acting industry, I am committed to honing my craft through dedicated training, self-expression, and a relentless pursuit of artistic excellence. By embracing the transformative power of storytelling, I aim to inspire, entertain, and connect with others on a profound level. Ready to embark on this fulfilling journey, I am determined to make a meaningful impact in the world of acting and embrace the endless possibilities that lie ahead.

## Career Experience

### **Solugenix – Colorado Springs, Colorado** Security Analyst

**2022 – Present**

- Advised for the removal of unnecessary applications from servers, streamlining system performance and reducing potential vulnerabilities.
- Championed the retirement of outdated and unnecessary equipment within the LA Care Network, ensuring optimal efficiency and minimizing operational risks.
- Provided valuable insights and recommendations for optimizing the configuration of LogRhythm [SIEM], enhancing the system's effectiveness and reducing bottlenecks.
- Collaborated closely with the service desk and system administrators to eliminate encryption standards from LA Care, promoting seamless workflows and aligning with organizational requirements.

### **Jacobs – Colorado Springs, Colorado** SIEM Administrator/Network Security Engineer

**2021 – 2022**

- Effectively communicated product specifications, features, and benefits to stakeholders, resulting in their clear understanding and enthusiastic support of the recommended solution, ultimately contributing to winning a 30 Million dollar contract.
- Collaborated effectively with colleagues to develop a comprehensive decision brief by leveraging diverse perspectives, sharing insights, and integrating input from multiple stakeholders.
- Assisted in the creation of Risk Management packages that encouraged customer acceptance of systems.

### **Booz Allen Hamilton – St. Louis, Missouri** Network Engineer

**2018 – 2020**

- Conducted thorough customer needs assessments and actively engaging with clients to uncover their true objectives, enabling the development of tailored solutions that align with their specific requirements.
- Developed immersive training environments for cyber operation exercises across diverse virtual platforms, effectively evaluating program and user efficacy in countering threats..
- Produced comprehensive documentation that encompassed procedural guidelines and network designs that facilitated future utilization and advancement.

### **Sandoval Technologies – St. Louis, Missouri** Cyber Security Specialist

**2018**

- Facilitated comprehensive training sessions that educated individuals on the optimal utilization of security software. Enabled successful mastery of programs and aligned training programs with organizational expectations.

Cryptologic Technician/Network Analyst

- Collaboratively led a high-performing team of 10 that proactively identified and resolved vulnerabilities and intrusions. Aligned efforts with the objectives of national cyber mission forces.
- Devised innovative methodologies that detected and analyzed anomalous and potentially malicious activities by global state threat actors. Enhanced the organization's ability to respond swiftly and effectively.
- Established seamless cross-functional processes and fostered collaborative relationships between teams, optimizing workflow and ensuring smooth operational transitions.
- Conducted comprehensive training sessions that improved the understanding of cyber actors' tactics, techniques, and procedures. Empowered the organization with the ability to assess risks, threats, and security breaches more effectively.
- Delivered actionable insights to customers by identifying network vulnerabilities and providing expert guidance on controlling and mitigating associated issues.
